Read the following passage carefully.

The presence of certain qualities makes friendship a special relationship . A true friend is consistent and honest . A friend is not afraid to give an honest opinion and does not say things for the sake of getting approval . A friend provides companionship and continuous support . There is no room for pride , jealousy or rivalry in friendship .

When one enjoys a period of prosperity , many people become available as friends . This is not friendship because these so-called friends slip away in difficult times . True friends stand by each other both in good and bad times .

Now answer the following questions :   [2*2=4]

Mention any two qualities of a true friend .

What does a friend provide ?
