		Composition (2.7.2021)	<p><b>Summer Season(Write it in your note book)</b></p> <p>Summer is my favourite season. The weather during this season is very hot. May and June are the hottest months of the year. People tend to</p>	

			wear comfortable light coloured cotton clothes as cotton is a good absorber of water. People use coolers and ACs to keep the surroundings cool. It is the season of many fresh fruits and vegetables like watermelon, musk melon, mango, cucumber, tomatoes, etc. Cold drinks and chilled fruit juices are consumed to beat the heat. The atmosphere in the evening is ideal for outdoor activities like playing and cycling. The reason why I love this season so much is that during this season we get summer vacation.
